

# LIVE DUBSTEP DRUMS

## LIVE DUBSTEP DRUMS

Future Loops is proud to release Live Dubstep Drums, a striking collection of Dubstep breaks that mesh up real live drums with detailed micro-editing for a unique Dubstep drum sound (loops are provided in both WAV & REX format).

These high-powered Dubstep beats were first recorded live and then processed, mangled, and tweaked to create the bouncy, clinging energy that is an essential trait in Dubstep productions.

**Live Dubstep Drums** is packed with 200 Drum Loops organized in 3 different Kits, each with a distinct sound and sonic texture for added variety.

**Live Dubstep Drums** contains :

*200 WAV Loops*

*186 REX Loops*
