

Future Loops is proud to release **Pure Club Beats** , a collection of over 700 samples perfect to use in your Dance productions .

Pure Club Beats features the collaboration of Olivier Abbeloos, the prolific House producer behind many projects such as Conga Squad, C-Mos, Cloud 9, Nu-Matic and the Holographic Music label.

Olivier Abbeloos created powerful dance beats that are an ideal fit whether you're into deep house, classic house, funky house or even electro . These beats were left raw so you have plenty of room to tweak them but they are already ready to be dropped into a mix .

Pure Club Beats was produced with the user in mind and all the individual loop elements from the beats (kick loops , snare loops , clap loops etc..) are offered on their own so you can remix the elements from different beats and come up with entire new grooves . The drum hits used on each beat are also included as well as variations and fill versions .

With over 700 samples, **Pure Club Beats** includes:

50 Full Beats (each with 3 variations and 3 fill versions)
227 Individual Beat Elements (26 Clap, 70 Hats, 50 Kicks, 13 Percussion, 12 Ride & Crash, 15 Shaker, 36 Snares, 5 Toms)
Over 200 Drum Hits including: Clap, Hat, Kick, Percussion, Ride & Crash, Shaker, Snare and Tom
