Future Loops is proud to present Ultimate Bass Music Sound Tools a Bass & Synth extravaganza with 400 speaker crunching WAV samples !

Ultimate Bass Music Sound Tools is a must have collection of highly inspirational One-Shots and a massive resource for any producer looking for dirty, heavyweight and filthy Bass and Synth sounds !

Perfect for Bass Music, Dubstep, Drum & Bass, Electro or even EDM these samples will take your sound system for a ride with a monstrous selection of hard hitting and ear tearing synths : from insane growls , bit crushed madness and talking bass destruction to dirty leads , freaky wobbles or distorted screamers !

This powerful collection will load your studio with the essential tools to create heavy Bass tunes : just import the WAV samples into your favourite DAW or Sampler and start cooking up some serious basslines ! You can resample , slice , timestretch , add effects and mash up the sounds into your own unique club-smashing patterns !

With 400 Bass & Synth samples offering a wide variety of sounds and ultimate flexibility this is a resource that will rapidly become a favorite on your sampler browser and one that you will go back to everytime you need that special heavyweight Bass sound !

All samples in Ultimate Bass Music Sound Tools are key-labelled and all sounds are 100% Royalty-Free !
