

Future Loops Presents Critical Breaks

Future Loops is proud to announce their latest selection of royalty free samples, **Critical Breaks**. This is a sleek and fierce release that features 10 Construction Kits ready to mix, mash, cut, edit and blend into your own productions!

Critical Breaks is a compact but very luscious pack that includes not only the usual Loops and One-Shots but also the corresponding Midi files! And to make sure you have total control we also offer as a bonus the **Metachemical – Massive Soundset** which gives you access to all the presets specially developed to create the sounds (for use with Massive, the VST synth from Native Instruments) .

The **Metachemical – Massive Soundset** is also available as a separate product for users only looking for Massive presets .

With tempos ranging **from 128BPM to 140 BPM**, **Critical Breaks** is ready to assault your headphones with twisted basslines , heavy breaks , razor-sharp FX and terrorizing synths! This is a superior collection designed for filthy electronic tracks and ideal for producers looking to create a wide range of styles from **Drum n Bass to Breakbeat to Tech-Breaks or Electro breaks**.

The samples were kept nice and raw, so there's plenty of room to play and tweak them as you wish, but they are already high-class, freshly squeezed sounds determined to infect your grooves with the Breaks virus!

Groove Series >> Critical Breaks

For maximum usability the samples are structured by Type (Bass , FX , Synth etc..) or by Groove (Construction Kits) and loops are provided in both WAV and REX formats .

Here is an overview of the content of **Critical Breaks** :

1.57GB (566 MB before duplication)

195 WAV samples

140 REX loops

78 Midi Files

As a bonus the **Metachemical – Massive Soundset** is included (51 presets for NI Massive)

40 Drum Hits

39 Twisted Bass Loops

11 Hat loops

10 Full Beats

35 Intricate FX

10 Kick loops

13 Snare loops

31 Synth loops

In a nutshell **Critical Breaks** is a on the button pack with a mouthwatering selection of loops , samples , Midi files and Massive presets . Full control , full power , full Breaks !
