

Real Series >> Dubbed Guitars

Future Loops proudly presents **Dubbed Guitars** a collection of over 1.000 dub guitar loops & one-shots both in WAV & REX format.

Dubbed Guitars was recorded in 4 different tempos - 60, 70, 80 and 100 BPM - and loops were performed in several different keys , providing you with a fresh diversity of guitar sounds & tones that will adapt perfectly to your dub productions.

Since this sample pack was specially conceived to bring Dub producers a broad spectrum of ready-to-use dub guitars please expect a lot of processing and effects . Although there are some more natural and raw loops , many of the guitar samples have been fully *dubbified* !

The loops are divided into 3 folders :

Chords - Live studio dub guitar recordings . Loops tend to a drier sound with mild reverb or delay .

Dubbed - A mix of live studio recordings & programmed patterns . Loops are heavily processed *dub-style* !

Licks - Cool dub riffs recorded live with mild processing .

Real Series >> Dubbed Guitars

For even more sonic possibilities **Dubbed Guitars** also deconstructs the loops into One-Shots and includes over 800 pre-sliced samples so there is plenty of dub guitar material to work with !

In sum , here's what **Dubbed Guitars** has to offer:

336 MB (404 MB after content duplication)

279 Dub Guitar Loops:

- 85 Chords Loops at 60, 80 and 100 BPM
- 102 Dubbed Guitar Loops at 60, 70 and 80 BPM
- 92 Licks Loops at 60, 80 and 100 BPM
- 820 One-Shots

Dubbed Guitars was designed for Dub productions but it's diversity of tempos, keys and structure makes it remarkably useful for a lot of other genres such as Reggae, Dubstep, Drum & Bass, Chill-out, Ambient and even Hip-Hop!
