

SOUNDSET SERIES >> DUBSTEP FOCUS – SERUM SOUNDSET**Tech Specs:**

100 Serum Patches

WAV & REX Format

1.22 GB

Future Loops is proud to release Dubstep Focus - Serum Soundset, an explosive collection of presets for the virtual synth Serum (Xfer Records) specially developed for Dubstep and EDM!

Serum is a wavetable synthesizer with a pristine sound quality, animated visualizations and creative workflow that makes it a serious sound design tool for music producers!

Dubstep Focus - Serum Soundset explores the powerful capabilities of Serum and includes 100 inspirational presets perfect for Dubstep, Bass Music, DNB & EDM tracks! Expect to find powerful growls , massive saws , booming subs , screeching leads , roaring synths and much more !

You can use the presets as they are or you can tweak, change parameters and move every knob until you completely reshape these sounds - the possibilities are endless!

Dubstep Focus - Serum Soundset is a must-have addition to your sonic arsenal that unleashes the power of this groundbreaking synth plugin!
