

Future Loops is proud to present "Dusty Breaks & Vintage Drums", a delicious collection of premium vintage sounding drum loops, fills and one-shots !

This unique sample treat is perfect for you to cook up some fine tasting beats with a sweet sticky retro flavor, all sprinkled with crackling textures, saturated phat grooves and that nectarous crate digging feel that'll make your head nod and your choons stink of fresh vinyl goodness !

**WARNING :** If you are looking for very clean, neutral, polite, well-behaved and "pristine" drums this collection is not for you ! In fact these drums are just the opposite, "Dusty Breaks & Vintage Drums" features several different drum kits that were expertly abused and processed to emulate the warm, imperfect and lo-fi sound of vintage drums using distortion, vinyl-like crackles, tape hiss, compression, spring reverbs and other retro elements that bring out the dusty, rare and authentic feel of 60's and 70's drums ! They are phat, dirty and hopelessly misbehaved !

But what do vintage drum kits need ? That's right, vintage drumming performances ! Worry not, the sonic work done on the drum kits is matched by supa funky tight grooves that sum up over 800 loops of swingin Soul, cool Funk and loose Chilled breaks !

## Drumming Series >> Dusty Breaks & Vintage Drums

The best of it all ? These breaks are 100% Royalty-Free ! They may sound positively retro , they may be brimming with crate digging enthusiasm and be so authentic that you won't believe they weren't sampled from obscure dusty vinyls found on a dark attic's lost box - but they are brand new , live and all original recordings !

What do you get in "Dusty Breaks & Vintage Drums" ? XXX Drum Loops and XXXX Fills at 77BPM , 90BPM and 95BPM ( REX loops also included if you want to use the loops them at different tempos ) .

How about drum hits ? We know you love your drum one-shots , so we painstakingly pre-sliced over XXXX of the best drum samples from each drum kit and organized them all by Type : Kicks , Snares , Hats , Cymbals , Tom and Rims ! If you are the kind of producer that likes to get busy and create beats from scratch you will find plenty of heavy artillery and variety here with crashing kicks , closed hats , open hats , multiple variations , rolls , flams , ghost hits etc.. ! It's a little paradise of vinyl drum hits and sampled breaks one-shots !

Here is a quick overview of what's inside "Dusty Breaks & Vintage Drums"
