

Drumming Series >> Dusty Breaks & Vintage Drums 2

The wait is finally over ! After the smashing success of Dusty Breaks & Vintage Drums and after an overwhelming popular demand for more Future Loops is delighted to present Dusty Breaks & Vintage Drums 2! The second installment from our best-selling old-school , vinyl flavored drum goodness !

Dusty Breaks & Vintage Drums 2 is here to bring you even more tasty beats and stickylicious live drums ! That's right , Future Loops returns with an hefty dose of crate digging awesomeness , with drums so phat you won't be able to leave the studio for weeks , crackling textures that would make a certain Chester named cheetah with an appetite for fried cheesy snacks melt in delight , and a Lo-Fi warmth reminiscent of an era where Hip Hop actually had groove and the living was easy !

Expect : Funk . Dust . Chill . Hiss . Character .

Don't Expect : No Funk . No Dust . No Chill . No Hiss . No Character .

Dusty Breaks & Vintage Drums 2 features several different drum kits, each with its own distinct sound and vibe. These kits were expertly processed to be as irresistible imperfect as possible : distortions , spring reverbs , compression and other retro elements were used to bring you an authentic and truly vintage sound!

With over 900 drum loops & fills at 77BPM, 90BPM and 95BPM adding this premium drum pack to your sample collection is a no-brainer Featuring super tight live performances , funky grooves , soulful patterns and chillaxed breaks there's just no limit on how you can use these babies!

Drumming Series >> Dusty Breaks & Vintage Drums 2

Besides WAV , loops are also included as REX for optimal tempo flexibility and the cherry on top...over 650 pre-sliced drum one-shots taken from each drum kit: They're like a room full of little puppies looking at you with their little puppy eyes begging for you to play with them : so go on , show off your skills and make killer beats from scratch : you've got punchy kicks , crispy snares , hats, toms , sexy rims and more !

Need we say more ? Just listen to the demos provided : listening is believing !
