Future Loops presents Jazzy Double Bass Vol- 2 a smooth sample pack of over 1900 Double Bass Loops & One Shots with a nice Jazzy feel.

Jazzy Double Bass Vol-2 is the second volume of our Jazzy Double Bass collection and was performed and recorded in 7 different tempos (60 , 80, 85, 100, 120, 140 and 160 BPM) and in a wide variety of keys, so it pleases all tastes and suits all needs !

Due to it's charismatic and mysterious tone , the double (or acoustic / upright) bass is capable of instantly adding that unique jazzy flavour and deep organic quality to a track . For this reason the double bass is an instrument often used in various music genres from Hip Hop , House or Drum N Bass to Breaks and Ambient to name only a few .
