

LO-FI & CHILL – SERUM SOUNDSET

Future Loops presents Lo-Fi & Chill - Serum Soundset , an irresistible collection of presets for Serum (the VST Synth by Xfer Records).

Lo-Fi & Chill - Serum Soundset designed to bring you a modern, contemporary set of presets that will be perfect for all Chill, Lo-Fi, RNB and Pop producers looking for smooth , rich and warm sounds!

You will find 808, Chord, FX, Pads, Plucks, Keys, Leads, Pad and Piano! Fully explore all the features and functionalities of Serum and tweak these presets, move knobs and reshape these sounds to make them truly your own!

If you want to set a laid back vibe to your tracks , with a dash of sunset and a sprinkle of Lo-Fi love this soundset is just what you need !

What is Included :

100 Presets for Spire

**** NOTE : You need to have Serum installed in your computer to use this soundset! ****

**** This Soundset contains a folder named Noises that contains WAV(s) file(s). In order for the file(s) inside this folder to load in Serum plug-in you need to move them into the Serum presets folder in your computer and create a new folder for Future Loops according to where Serum is installed in your system. (example : "Documents\Xfer\Serum Presets\Noises\Future Loops")**
