

SOUNDSET SERIES >> MAINROOM HOUSE & ELECTRO – MASSIVE SOUNDSET

Future Loops is proud to release Mainroom House & Electro - Massive Soundset - another exciting and powerful production tool from our Soundset Series dedicated to preset tweaking and sound programming for the most popular virtual synths !

Mainroom House & Electro - Massive Soundset is an exceptional set of high quality and professional presets for NI Massive that fully explores the smashing potential of this sound beast !

The sounds range from clean and warm leads, distorted and fat basses , to dirty and nasty synths , plucked stabs , arpeggios , sequences , drops & more ! Perfect for EDM productions , Electro and Mainroom these presets are so versatile and flexible enough to fit like a glove in any urban style you're into like Glitch Hop , Dubstep , Complexro , Breaks or D&B !

Each one of the 64 presets has pre-defined Macro controls that allow you to quickly shape the sounds and tweak parameters with total control!

Simply check out the demo to listen to many of the presets from this must have soundset and you will instantly know why you will be using these sounds in your tracks over and over again !

Once again, Future Loops brings you fresh creative power at your fingertips!

* For older versions of Massive , KSD files are included .

** For recent versions (1.3) NMSV files are available .
