### Advantage of the Loop Elements :

You will love how we included each element of a beat as a standalone loop . This really maximizes your mixing potential ! Now you are not limited to “just” the full mixed beat .. Have you ever had a beat that was perfect except for those strange maracas , or odd cymbals that just didn’t mix well on your track ? No problem , with “Nuclear DNB” you can use the Full Mix beat if you want or combine the KICK of loop A with the hats from loop B , with the snares of loop C and loop D . Its your decision , your call , your music ! With more than 600 standalone Loop Elements you will need months to drain all the juice from this baby!

Want to create a new Drum & Bass beat from scratch ?

No problem . Once again we did all the boring , painstaking and tedious work and we sliced all the beats into individual drum hits , leaving you all the fun to use them to develop new and potent beats ! There are over 2000 drum hits , all sliced and ready to be part of the next Drum & Bass classics !

Tempos range from 160BPM-175BPM

We developed “Nuclear DNB” in 4 different tempos : 160BPM , 165BPM , 170BPM and 175BPM . Styles range from spatial to jazzy , from hardcore to jungle .

Formats: All loops are provided in WAV & REX . Hits and One-Shots are provided in WAV
