

## Synthetik Series >> WIDE NOIZ 01

Future Loops is proud to present **Wide Noiz 01**, a collection of FX geared towards electronic & dance music productions.

**Wide Noiz 01** brings you a compact and extremely dynamic arsenal of sound effects developed around noise-type of builds , rises , falls , sweeps and swooshes !

This exclusive collection of 100% Royalty-Free white-noise fx was constructed from the ground-up to power your studio with critical sound design elements to control the breakdowns , build ups and drops of your tracks - build momentum and create transitions easily or use it to instantly glue the different parts of your mixes together !

The sample effects in **Wide Noiz 01** are perfect for any part of an electronic or dance genre : house , progressive, trance, techno , drum & bass , breaks, electro or dubstep - the possibilities are endless!
