GrooveBits is happy to announce Festival EDM Producer, a stunner sample pack that will take your EDM productions to a whole new level!

We decided to bring you all the necessary tools to build head to toe EDM tracks with a festive vibe and a contagious energy: from ripping synths and huge leads to pounding drums, catchy vocal FX and melodic snippets we've got you covered!

Organized into 15 Construction Kits you'll get tons of instrumental content: synths, dubs, bass, leads, arps, pads, FX, piano, vox & more - plus the Full Mix drums as well as individual loop elements such as Kick , Claps, Snares & Hats or Percussion !

MIDI files are also included so you can adapt, process and reshape the sounds into new exciting melodies!

As a BONUS, over 150 One-Shots were included (clap, ride, synth, lead, bass, kick....) so expect to get your hands down dirty and make your own EDM drum grooves totally from scratch!

Festival EDM Producer is flawlessly produced in the lines of some of the top EDM artists out there and will energize your tracks in an instant!
