

GrooveBits presents Progressive Trance Producer a contagious collection of Trance and Progressive construction kits, samples & loops in WAV, MIDI and REX format.

Progressive Trance Producer is the perfect sample tool for all Trance and Progressive producers looking for creative, inspirational and high-quality ready to mix sound tools : expect to find crisp drums, big chords, infectious plucks, pumping basslines, huge pads, melodic leads, FX & more!

Progressive Trance Producer features highly flexible and versatile Construction Kits that you can use as the starting point for your tracks or as a sound pool of inspiration to enhance your next Progressive productions!

Inside each kit you'll find Full Drums, Drum Loop Elements, Melodic Loops and Drum One Shots.

Besides the standard WAV & REX formats we also provide REX Loops for ultimate tempo control PLUS all the MIDI files for total creative power , allowing you to truly shape the sounds as you please!

All samples in Progressive Trance Producer are 100% royalty-free and come Tempo and Key labelled!

Here is what you will find inside :
